EXAMINER'S AMENDMENT

Election/Restrictions

1. This application contains claims directed to the following patentably distinct species: Species I – Figure 6, Species II- Figures 7 and 8, Species III- Figure 10, Species IV- Figure 11, Species V- Figure 12. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, none of the claims are generic, however, claim 12 is generic to species IV, and Species V.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species.

MPEP § 809.02(a).

2. During a telephone conversation with Mr. Dominic Goudreault on March 24, 2006 a provisional election was made without traverse to prosecute the invention of Species IV- Figure 11, claims 12-18.

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

4. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Goudreault on April 21, 2006.

The application has been amended as follows:

In claim 12, line 21, after "brake", -actuator- has been inserted.

5. This application is in condition for allowance except for the presence of claims 1-11 directed to a species non-elected without traverse. Accordingly, claims 1-11 have been cancelled.

6. Claims 12-20 are allowed.

7. The following is an examiner's statement of reasons for allowance: Claim 12 includes the limitation of the self braking device operatively connected to the steering assembly and the braking system and disposed between the tie rod and the knuckle and operable to cause actuation of the brake when a compressive force encountered by

Art Unit: 3616

the tie rod exceeds a predetermined level. A combination of these limitations and the other recited features was not reasonably found in the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Badsey, Ethier, and Trautwein teach three wheeled vehicles of interest. Milster, Hunter, Drivers, Leiber, and Young teach braking and steering systems of interest.
